

THE ASSOCIATION OF WOODTURNERS OF GREAT BRITAIN.  
WEST MIDLANDS BRANCH.

Secretary:- Graham Lovett.

66, Beachcroft Road,  
Wall Heath, BATTY,  
Kingswinford,  
West Midlands.  
DY6 OHX.

DATE.....SUNDAY, 16th October, 1994

Telephone:- 0384 277398

VENUE.....St Peter and Paul's Church Hall, New Road,  
Water Orton.

Dear Phil

"NEWS AND VIEWS".

FEE.....Eleven pounds (plus cold buffet lunch)

A big thank you to Joe CATLEY and Geoff NEWMAN for their efforts in putting on the competition, display and demo stands at the Marston Green Horticultural Show held in August. Thanks also to Les COLLETT who loaned his lathe for the demonstration, to Reg BAKER for his assistance and to Roger WARREN-FINDING who judged the competition entries, and of course those members who submitted their work for the competition. Not forgetting the winners either, namely Dave NASH, Joe CATLEY and yours truly. This is a friendly little show and one I feel we as Branch should continue to support, but to make it an even greater "shop window" for us, more people must get involved. How about it next year??!!

Other matters of interest to you.....Starting at the top, Tony WADDILOVE, National Chairman, has resigned from his post, and until the next A.G.M. his place will be filled by current Vice-Chairman, Ray KEY.

Arrangements for the August, 1995 International Seminar at Warwick, are gathering pace, with details hopefully being finalised before December. For those who attended previous Seminars at Loughborough, there is no comparison; with workshop, accommodation, restaurant facilities and general surroundings at Warwick so much better. Full details will be circulated via "Revolutions" in due course.

NEXT MEETING.....NEXT MEETING.....NEXT MEETING.....  
+++++

Sunday, 25th September, 1994, at the Church Hall, New Road, Water Orton, starting at 2pm, when the usual charge of two pounds will be made for the visit of Alan HEWITT. Alan, you may remember, visited us in April when he demonstrated his lace bobbin making. This time his subject is "ORNAMENTAL TURNING" on equipment which he has developed himself. An afternoon not to be missed, me thinks!!

PLEASE BRING ALONG YOUR WORK FOR THE DISPLAY TABLE.

And Finally.. Don't forget the Allan BATTY Seminar - details attached.

Regards,

Quaker
